

Darta – Interim Project Manager (Celano, Italy)

For **Covalpa Abruzzo**, we are looking for an experienced **Interim Project Manager / Commissioning Engineer** for an assignment of approximately **4 months** in **Celano (Abruzzo, Italy)**.

Your mission

You will take responsibility for the commissioning and optimization of newly installed packaging lines, ensuring they operate efficiently, reliably and according to expectations.

This role combines both **technical expertise** and **work organization/project coordination**.

Assignment

Location: Celano, Abruzzo (Italy)

Duration: Approximately 4 months

Company: Covalpa Abruzzo

Profile

Engineer or equivalent technical background

Excellent knowledge of **English and Italian**

Strong experience with **PLC-controlled systems** and **packaging lines**

Experience in commissioning, start-up and optimization of industrial equipment

Able to coordinate activities on site and organize work efficiently

Strong communication skills

Comfortable acting as a bridge between the local team in Celano and the central Engineering team at Darta headquarters in Belgium

Interested or know someone who could be a good fit?
